

# Jesus walks on water - story craft activity

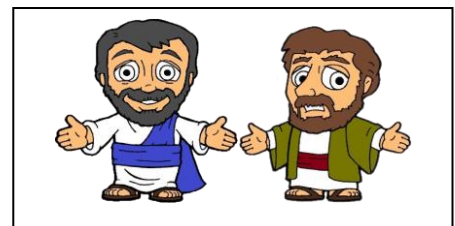

In this activity you will need:

- 2 pieces of A4 thin card or thick paper
- Pair of scissors
- 2 Lollysticks (or drinking straws)
- Sellotape
- Colouring pencils or pens
- A clever mum or dad to help you with the cutting and adapting the instructions if you need help.☺

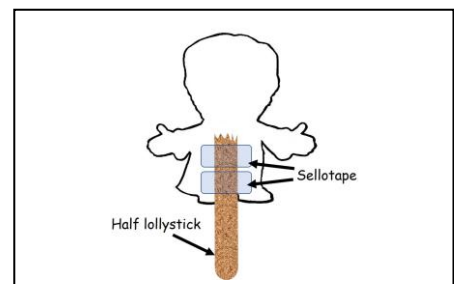

1) Firstly, print out your templates and then colour the pictures.

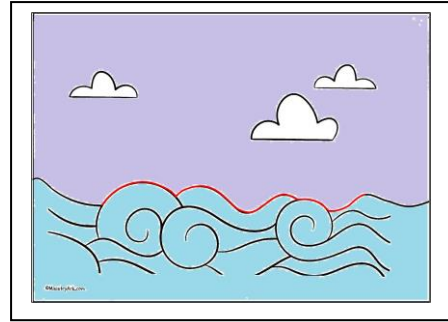

2) Now, cut out the Jesus and Simon character

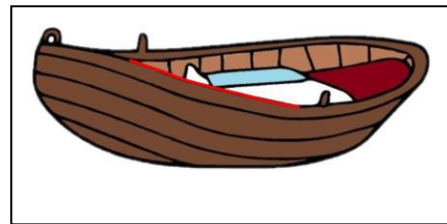

3) Now break one of your lollysticks in half. Turn over each of your characters and stick a lollystick to the back with sellotape.

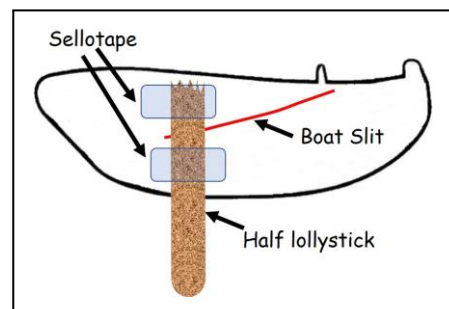

4) **This is the hard bit:** - you might want mum or dad to help you here. Carefully cut along the top edge of the waves to make a slit. This is shown as the red line on the picture.

5) Cut another slit in the edge of the boat. The red line in the picture shows where you need to cut.

6) Next, turn the boat over and stick another half of lollystick on the back with sellotape

7) Now, turn the boat frontwards and slot the lollystick into the wave slit.

8) Turn Simon over and slot his lolly stick into the boat slit.

9) Finally, turn Jesus over and slot his lollystick into the waves slot.

You can move the sticks to move the characters and boat. You could get Simon out of the boat and make him sink when he stops trusting Jesus.
