

Exodus – week 6 Study Guide: God dwells with his people

Exodus 40: 34-38

God's word can be transformative. Can you think of a Bible passage that has had an impact on your life?

In Exodus we can see God's rescue plan for humanity points to Jesus. How does it make you feel seeing that Jesus is the thread linking the books of the Bible written by so many authors and over so many hundreds of years even before the earthly birth of Jesus?

Read 1 Corinthians 6:19 and 20. "Your bodies are temples of the Holy Spirit". What a responsibility, an honour, a concern?

How does this make you feel?

This can and should affect our relationship with God very positively. How can we make sure this is true?

How does the building of the tabernacle excite you about the new creation that it pointed to, and that God's people are heading to?

How can you play your part in ensuring that our church is a suitable place for God to list as his address on earth?

As you have enjoyed Exodus, what has changed in your view:

a) of God?

b) of yourself?

c) of your purpose in life?
